

A Memory Object

for Each AO in Each AF:

1. Each contains a reference to an AO
2. Each has decay characteristics
3. Each contains following behaviors

AF_x's

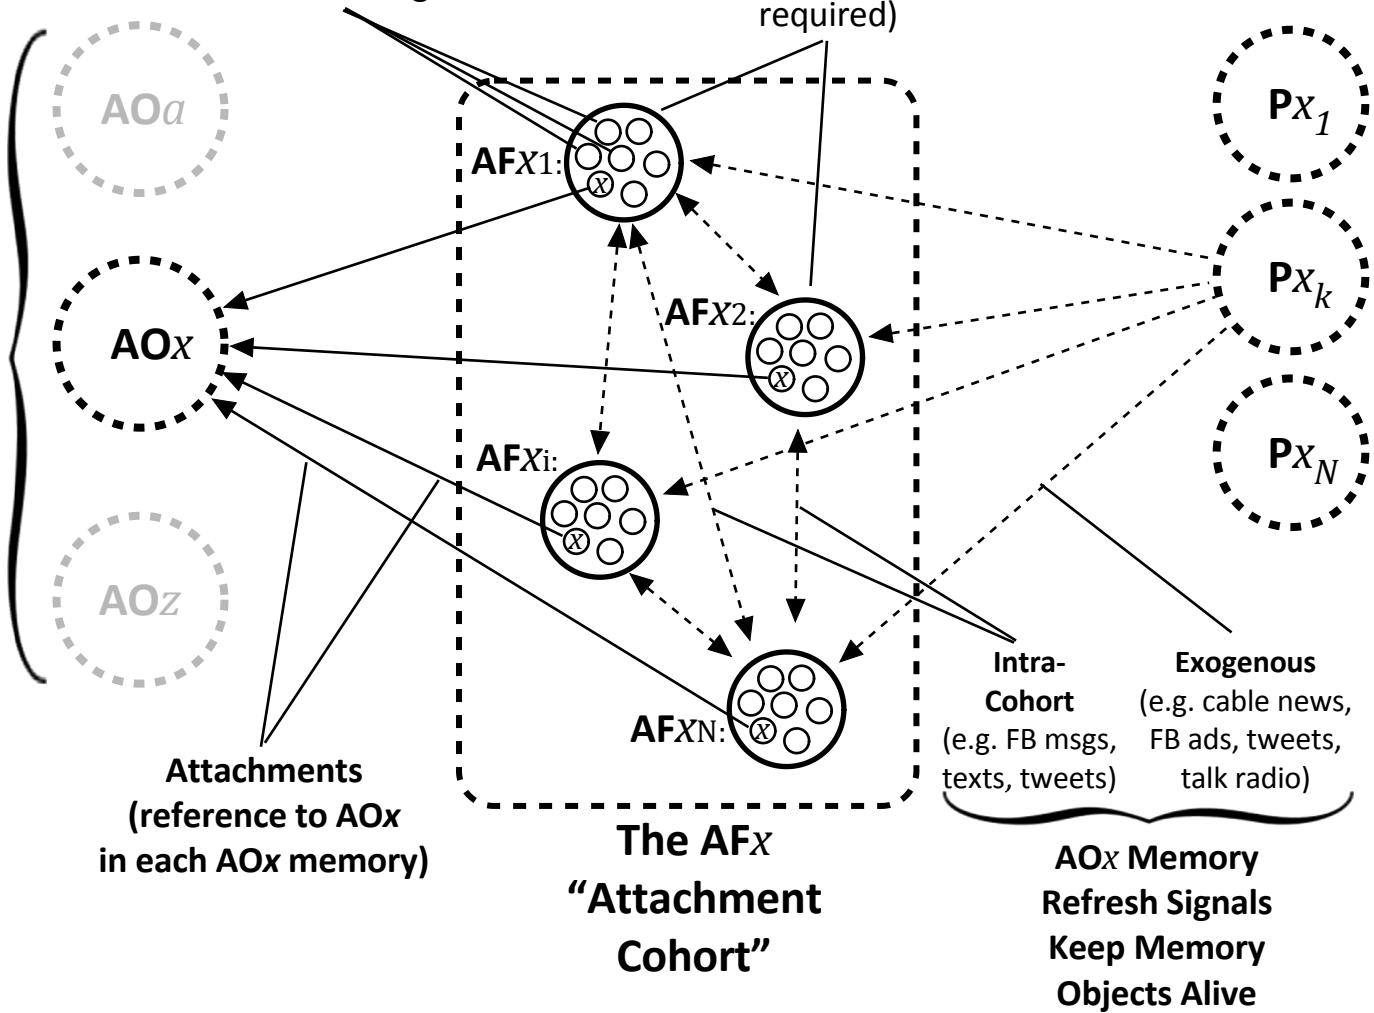

(Followers of AO_x)

(individual people;
separate object model
required)

External Propagandists for AO_x

Attachment Objects (AO)

Need not exist physically;
can exist solely as a set of references in AO memory objects (e.g., memes).

Partial Object Model of Cohort of Followers AF to Attachment Objects AO
